Profile

Magento 2 / Adobe Commerce backend developer with 2.5+ years of professional experience on international B2B and B2C storefronts for Carhartt WIP, Anita and Edwin Europe, serving 50,000+ monthly users across Europe. I build custom modules on Service Contracts, REST integrations and Hyvä storefronts, with a focus on performance: product listing pages went from 3.2s to 0.8s. Preparing the Adobe Commerce Developer Professional certification (AD0-E724).

Skills

Magento / Adobe Commerce Magento 2.4.x, PHP 8, custom modules, plugins & observers, dependency injection, Service Contracts, UI Components, adminhtml, indexers, cron, Composer patches
B2B commerce Company accounts, tiered and customer-group pricing, catalogue permissions, inventory synchronisation
APIs & integrations REST APIs, webapi.xml & ACL, OAuth2 / JWT, Microsoft Entra ID SSO, Amplience DAM & CDN, Adyen / Apple Pay
Frontend Hyvä Theme, Alpine.js, Tailwind CSS, React, Knockout.js, JavaScript (ES6+)
Performance & infrastructure Elasticsearch / OpenSearch, Redis, Varnish FPC, MySQL tuning, Nginx, Docker, CI/CD, Linux
Also Laravel, Java / Spring Boot, C# / .NET, Python, Git, Xdebug, Agile / Scrum, code review

Experience

Freelance Full-Stack Developer Aug 2026 – Present
Remote · client projects through agencies

- Through the J2HB agency, built the online store of Mercato TNG, a Moroccan home-appliance retailer, on Laravel 12 / Bagisto, PHP 8.3, MySQL and Redis: 4 languages (French, Arabic RTL, English, Spanish), stock management, cash on delivery and PayPal, the old site's full catalogue migrated, Docker setup, Pest and Playwright tests.

Magento 2 Developer Jan 2024 – Jul 2026
Cartware / Morocommerce · Fès, Morocco

- Built the REST API layer for the Carhartt WIP DAM integration: repository interfaces, service contracts, di.xml / webapi.xml wiring and Amplience CDN asset resolution, exposing customer verification, credential and catalogue-image endpoints to partner systems.
- Integrated Microsoft Entra ID (Azure AD) single sign-on (app registration, JWKS-based JWT validation, callbacks) and set up Apple Pay domain verification on Adyen for Edwin Europe.
- Cut product listing load time from 3.2s to 0.8s by reworking Elasticsearch field mapping, MySQL queries and indexes, Redis caching and Varnish full-page cache.
- Delivered Hyvä storefronts (Alpine.js, Tailwind CSS), scoring consistently above 95 on Google PageSpeed.
- Built B2B workflows: tiered and customer-group pricing, catalogue permissions, inventory sync over REST.
- Replaced third-party extensions with in-house plugins and observers (Service Contracts).
- Shipped a translation-management admin module (CSV import, bulk upsert through UI components) and fixed a core UTF-8 collation bug with a Composer patch.
- Refactored 50,000+ lines of legacy code and stabilised Docker and CI/CD pipelines, cutting production bugs by 45%.

Laravel Developer (Internship) Aug – Dec 2023
Cartware / Morocommerce · Fès, Morocco

- Built an internal management platform on Laravel 10 and Tailwind CSS, used daily by 25+ employees.
- Designed 15+ REST endpoints with proper HTTP semantics, request validation and Eloquent relationships.
- Implemented role-based access control and optimised the underlying queries, halving response times.

Web Developer (Internship) Mar – Apr 2023
Sidi Mohamed Ben Abdellah University · Fès, Morocco

- Built a PHP / MySQL HR app automating leave requests and payroll tracking, removing 70% of manual HR work.

Certification

Adobe Commerce Developer Professional (AD0-E724) In preparation
Magento 2.4.7 backend development, Adobe Commerce Cloud, checkout and sales flow, adminhtml UI components

Education

University Diploma (D.U., Bac+3) in Web Development Frameworks & Java EE Highest honours (mention Très Bien)
ENSA Fès, Sidi Mohamed Ben Abdellah University · Java EE, Spring Boot, C# / .NET, software architecture

Specialised Technician Diploma in Digital Development
